

Ciclo de conferencias

- 22/01/19** *Where do your data fit in the European marine data landscape?*
Belén Martín. Centro Tecnolóxico do Mar
- Ascidians under Ocean Warming and Acidification*
Tiago Repolho. Marine and Environmental Sciences Centre, Universidade de Lisboa
- 05/02/19** *Hakes of the world: clarifying the phylogenetic status of five candidate species*
María Fernández. Recursos Xenéticos Mariños, Universidade de Vigo
- 19/02/19** *ABS?, are you talking about my car's brakes?*
Antonio Villanueva. Centro de Investigación Mariña, Univ. de Vigo (CIM-UVigo)
- 21/03/19** *Climate variability and fishery resources in the Humboldt system. A look at the past from the sedimentary record.*
Jorge Valdés. Universidad de Antofagasta, Chile
- 02/04/19** *Evolution of the oceans on Earth and Mars: the point of divergence*
Elisabeth Losa. Enxeñaría Química, Universidade de Vigo
- 09/04/19** *Toxic effects of microplastics in marine environment*
María Oliviero and Simona Schiavo, ENEA Research Center (Portici, Italy)
- 23/04/19** *EMussel beds. Much more than seafood.*
Marcos Rubal García.
Interdisciplinary Centre of Marine and Environmental Research (CIIMAR, Portugal)
- 07/05/19** *Interaction between waves and coastal structures: from coastal protection to energy generation*
Alejandro Crespo. Laboratorio de Física Ambiental EPHYSLAB, CIM-UVigo
- 21/05/19** *The nature of palaeo climate change*
Gianluca Marino. Xeoloxía Mariña e Ambiental, CIM-UVigo
- 04/06/19** *Costs of learning in juvenile three spined stickleback*
Náyade Álvarez. Ecoloxía Animal, CIM-UVigo
- 18/06/19** *Of snails, crabs and waves: a tale of adaptation through the lens of genomics*
Francesca Raffini. University of Sheffield, U.K.
- 18/07/19** *Studies into coastal seabirds: understanding the importance of currents, topography and meteorology when estimating responses to environmental change.*
James Waggitt. Bangor University, U.K.
- What drives contrasting patterns of genetic connectivity in Atlantic octocoral species?*
Jamie Stevens, University of Exeter, U.K.
- 17/09/19** *Assessing the effect of oil spills on the dynamics of plankton community using a model*
Jose González. Oceanografía Física, CIM-UVigo
- 01/10/19** *Endocrine disruption by plastic additives in sea urchin, Paracentrotus lividus*
Pedro Campoy. Ecoloxía Costeira, CIM-UVigo
- 15/10/19** *Why should we care about ocean turbulence?*
Beatriz Mouriño. Oceanografía Biolóxica, CIM-UVigo
- 05/11/19** *Impacts of climate change on tropical tunas, how can we adapt an international fishery?*
Iratxe Rubio. Future Oceans Lab, CIM-UVigo
- 03/12/19** *Size matters, at least speaking about phytoplankton*
Cristina Fernández. Oceanografía Biolóxica, CIM-UVigo

Lugar: Salón de actos da ECIMAT
Hora: 11.00-11.40 h
